The South Flooded With Cheap Money With Great Schemes Involved.

A RUSE OF THE GOLDBUGS.

They Lend Money to Our Bankers Who in Turn Lend it Out at Big Interesb-The Plan to Prove That Times Are Getting Better.

People's Party Paper.
The news comes from New York that \$7,000,000 or \$8,000,000 have been loaned to the banks in South Carolina, Georgia and Alabama since May 1st at the low rate of 4 per

This money is shipped down here to make the dear people believe that prosperity has resumed business at the old stand and that a contracted currency is a delusion and a snare.

The banks that are borrowing the money propose to turn it loose in the South. By a preconcerted arrangecountry; and so it will come to pass hands of country merchants at 8 per cent who will in turn let the farmers

Of course the promoters of Presi dent Cleveland's financial scheme is behind this movement. It is a ruse on the part of the bankers to estab-lish the idea that money is plential and a change from the present financial system unnecessary. It will be observed, however, that

the bankers and merchants are the only ones that secure a clean-cut profit, while the farmers, who are the real endorsers for the loan, have all of the burdens to bear and as usual reap nene of the benefits. The New York correspondent who called attention to this influx of cheap

money goes into details which are very interesting. He says: "There have been a large number of bankers visiting New York from the States of South Carolina, Georgia and Alabama since May 1st, at differof the Associated Press dispatches ent times. Don't allow your paper to stop now. Keep it up, and if you want to be of any assistance in the great fight of the people against the money powers, induce some one else to subscribe. The next six months will be full of interest and important discussions, and if you miss a copy, some important point may escape you. Let us line up and march together. We are trying to combat the powers of oppression and disaster. It is your fight. Are you helping any?

IS THE EARTH THEIRS? The masses of the people are dis-

cussing and debating the financial question with great vigor and intense earnestness. It is getting time to act. This announcement ought to be made in thunder tones. Again we say that a time can come when it will be too late to act in peace.

While the people are talking and debating, the money powers are siarrangements called law as the power of gold can effect.

WHY THIS AND WHY THAT?

The News and Observer made s ricions and distardly attack upon the Supreme court of this State when aw. That paper went beyond all bounds of decent and respectfu' criticism and was really guilty of contempt of court. Why has that paper not made such an attack upon the Supreme court of the United States? Certainly there would be some excuse for attacking the latter court, for it has overturned the desions and precedents of a hundred years and has made liberty a laughng stock and our constitution a farce: while our State Supreme court has sustained the decraions of a hur dred years and rendered a decision that nine-tenths, at least, of the legal profession of the State will ap-

Editor Constitution—I desire to call public attention to the little book recently written by Mr. Harvey, of Chicago, with the above title. It is a book of about 160 pages, good type. It is the most complete exposure of the infamous work of the gold mononpoly. It is the most lucid presentation of the entire currency question ever written. All questions connected with the subject are answered and authorities given. The fallacies by which the common people have been duped and well aigh ruined are all exposed and made so plain a child can see them. The book is a light to the poor man, whose family has been brought to hunger and he can't tell why. This book shows him who robbed him. The book is going broadcast through the land, selling by thousands, on the trains and everywhere. Mr. Harvey has done a work which will immortalize him and bless his suffering people. Let every man

The "Reform Club."

We have spoken more than once of the "Reform Club" at 52 William street, New York. The New Era says: has, it is said, three thousand millionaires in it. It is a Wall street club, and has stolen the name "reform," hoping to deceive the public. It dares not eall itself by its own name—the "Wall street club." This reform (?) club is sending out financial articles to the Republican and Democratic country papers. When you see such an article, remember it is representing the views of New York millionaires; and remember, too, that if the interests of the lion and the lamb are identical, so are the interests of the millionaire and the laborer and producer.

The Negro at the South. Washington Post.]

Gen. Wade Hampton is now verifying, by spoken as well as by written word, every assertion the Post has heretofore advanced as to the attitude of the high-class southern whites toward their colored fellowcitizens. He is proving that it is not the old aristocracy, the slave-holding clases of forty years ago, who antagonize the negro and would keep him in political degradation, but the "peor whites," the demagogues, and the ignorant rabble. Gen. Hampton says: "As a slave he was faithful to us. As a free man let us treat him as a friend." And that, we solemnly believe, is the feeling of nine out of ten of the southerners of his birth, breeding, and associations.

It is important that this question should be carefully considered and intelligently understood at the north. There has been enough, and more than enough, of misapprehension and the prejudice that comes of ignorance. It is not the southern politician-the old Confederate leader or his descendant-who sets up the false and cowardly pretext of "No Negro Domination" to cover outrages on the ballot-box and the suppression of free government. It is the irresponsible demagogue, the mischief-making agitator, and the vicious rowdy. Twenty-five years ago there was some reason for such a rallying cry, and then men of the Wade Hampton class responded to it and rescued the civilization of the south from extinction. But no such reason exists today and every sensible and honest man throughout the south perceives and acknowledges the truth.

The integrity of the Union, the preservation of our institutions, the rights of the individual, white or black, are in no danger at the hands of the gentlemen of the south.

Good Health

And a good appetite go hand in hand. With the loss of appetite, the system cannot long sustain itself. Thus the fortifications of good health are broken down and the system is liable to attacks of disease. It is in such cases that the medicinal pow ers of Hood's Sarsaparilla are clearly shown. Thousands who have taken Hood's Sarsaparilla testify to its great merits as a purifier of the blood, its powers to restore and sharpen the appetite and promote a healthy action of the digestive organs. Thus it is, not what we say but what Hood's Sarsaparilla does that tells the story and constitutes the strongest recommendation that can be urged for any medicine. Why not take Hood's Sarsaparilla now?

Justice Harlan, with the heroismland boldness of both a sound jurist and a patriot states the case in the nutshell when he declares that "such a result is one to be deeply deplored. It cannot be regarded otherwise than a disaster to the country. The practical, if not the direct, effect of the decision is to give to certain the decision is to give to certain 

\*\*Still far mere reaching, the decision not only lowers the dignity of the court itself by the loss of confidence in both its integrity and ability to deal with any constitutional question, but it may lead to its entire reorganization. While the people may not be able to follow this decision in all its complications, it will not be long before their minds will be clearly made up to the fact that there is something wrong somewhere—either in construction of the court, or in some lamentable defects in the constitution of the government, which fall so far short of enough clearly defined powers as to enable it to both defend itself and to enforce its own authority. The people have had enough of this sort of nonsense. They had one war on account of it, and will hardly be terrinonsense. They had one war on account of it, and will hardly be terrified with it again. With all this, the new issue which this decision has precipitated cannot be ignored by the approaching session of the new Con gress, thus promising additional complications to the already over-burdensome conditions of the country, and that will put to the test the wisest and most sagacious statesmanship we have to deal with it. The real question of the hour now is not whether one section will triumph over the other, or whether the rich shall be made richer and the poor poorer, but "whether this government of the people, by the people and for the people, shall perish from the earth." That the people in their dom there is no doubt, and thus furnish additional proof that the republic is not yet a failure.
